FROM: AD/OCC

I have been advised that the HAC I&S Staff plans to undertake an investigation of the Community's personnel security program, apparently with emphasis on the Defense Investigative Service and the Interview Background Investigation issue. A letter from HAC to D/ICS ~~will be forthcoming~~, *is attached* presuming the C/SECOM will act as POC for the investigation. will give DOD discreet advance notice.

Both good & bad!

it could result in DIS being adequately funded even if DOD management doesn't want to use it monies for that purpose, it also could result in a new attack on Community Security!
